VICTOR REVEALS THE TOP TEN PRIVATE JET DESTINATIONS FOR THE AUGUST BANK HOLIDAY

- Demand for jet charter continues for the August Bank Holiday, with France and Spain most popular destinations
 - Trending destinations are typical for this time of year, despite quarantine
- Bookings are more last-minute and subject to stringent COVID safety measures
- 30% increase in UHNWIs flying to the Balearics to second homes, versus 2019

LONDON, August 21st, 2020 - Leading global on demand aircraft charter company **Victor** (www.flyvictor.com) releases the booking trends of its members for the Bank Holiday weekend, with France and Spain leading the way as the most in-demand destinations

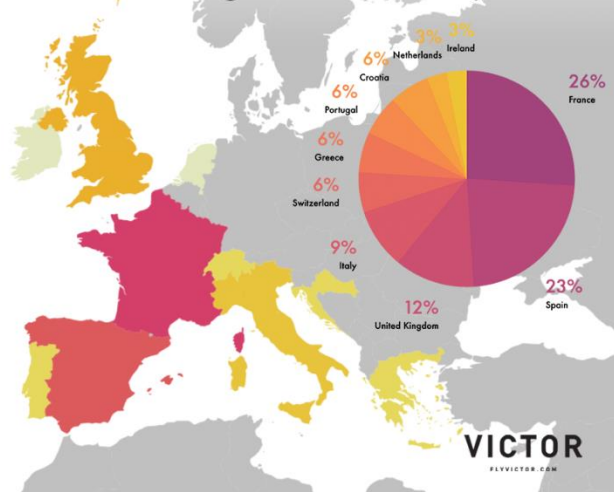

Aircraft charter has been in high demand this summer, with airline capacity reduced and an unusually high number of new bookers favouring the safety, efficiency, and fewer touch points of private aviation. Charterers benefit from use of the private terminal for check-in and security and control over who they share the aircraft with, as well as the capability to fly direct to their end destination. All Victor customers fly 200% carbon offset, mandated by the company as part of its industry-leading and award-winning sustainability strategy.

Victor reports that clients are booking with a shorter lead time this summer. In August 2020, 88% of Victor's departures from the U.K. are taking off less than one month after the booking, versus 73% in August 2019. Flights are often with as little as 48 hours' notice and COVID measures are carefully implemented on all bookings. Since the outbreak of COVID, all passengers must complete a passenger locator form prior to departure, and some countries complete spot check COVID tests upon arrival.

Departing from the U.K. for the August bank holiday, Victor's top ten destinations are:

1. France (26% of bookings)
2. Spain (23%)
3. Regional U.K. (12%)
4. Italy (9%)
5. Switzerland (6%)
6. Greece (6%)
7. Portugal (6%)
8. Croatia (6%)
9. Netherlands (3%)
10. Ireland (3%)

Where are private jets flying for the August bank holiday?

The trending aircraft charter routes and destinations are typical for this time of year, however this summer a greater percentage of flights to the Balearics are for travel to second homes. In June and July 2020, 60% of Victor's bookings to Ibiza and Mallorca were for homeowners or second homeowners on the islands. In June and July 2019 by comparison, fewer than 30% of the flights to Ibiza and Mallorca were for homeowners or second homeowners.

For August Bank Holiday 2019, Victor's top booked destinations departing from the U.K. were:

1. Spain (29% of flights)
2. France (21%)
3. Regional U.K. (12%)
4. Italy (7%)
5. Ireland (4%)
6. U.S. (3%)
7. Switzerland (2%)
8. Portugal (2%)
9. Greece (2%)
10. Netherlands (2%)

Victor is the world's most environmentally responsible air charter company and the only aviation provider to carbon offset every flight by 200% at no extra cost to the flyer.
